## LETTER OF APPRECIATION

to

### Rig: Valiant Driller

To,  
Shri Abhijit Gupta,  
DGM (D)-Rig Manager

*Performance of the rig: Valiant Driller is remarkable in 2018-19. Presently, rig has successfully completed well NETP#1 and is under deployment to location MBS051NAA#F (TD-2630m). Objective of the Well NAA#F is to appraise Daman Pay sands encountered in NAA#A.*

*Some of the noteworthy achievements of this rig in 2018-19 are as below:*

- 1) Commercial Speed & Cycle Speed of Valiant Driller is 1,522 m/RM & 1,261 m/RM (respectively), significantly high among the rigs deployed for Exploratory Drilling in East Coast & West Coast.*
- 2) Post Monsoon (in 2018-19), Valiant Driller has drilled 5,555m, highest among the rigs deployed for Exploratory Drilling.*

*In 2018-19, Valiant Driller has completed 2 Exp wells and is likely to complete "3" wells. This milestone has been achieved by proper coordination and advance planning by Exploratory Operation Group, GOG (WOB Basin), Technology (Exp.) and Allied Services like Drilling Fluid, Cementing, Logging, Logistics Group etc.*

*Nonetheless, this achievement wouldn't have been possible without the proactive approach of entire drilling crew under your leadership.*

*On behalf of entire Team Exploratory, I congratulate Team Valiant Driller for outstanding drilling performance. I hope the rig will continue to operate in an efficient and productive manner in future.*

*Keep up the good work.*

J K BOSE  
LMDS (Exploration)
